

NEW PRESENCE WALL/FLOOR VIDEO CONFERENCE

Let the floor take the pressure

A smart way to mount heavy displays on regular walls

Do you need to mount a large and heavy display or a touch display on a regular wall? With a quick, easy and stylish installation too?

SMS Presence Wall/Floor Video Conference makes it all possible, a perfect support in the lobby area or conference room.

The smart design shifts the weight to the floor, and furthermore, the stand itself uses very little floor space – perfect in small spaces where a bracket with legs would be in the way.

The product is extensively premounted for easy installation.

Fine adjustment possibilities allows for edge-to-edge mounting of displays. The displays can be locked with the accompanying locking screw for personal safety, or with a padlock (not included) to provide increased protection from theft. The design is protected.

Maximum display weight is 60 kg per display – total 120 kg.
